## Inspection Report Comments

Date of Inspection 03-04-93 Identification Number PAD054139506  
Company/Facility/Site Name Ferranti Technologies, Inc.

Randy Weiss and Chet Zeller from the Department conducted an inspection with Mike Herman, facilities manager, at the Ferranti facility at 3050 Hempland Rd. A previous inspection conducted 9-1-92 had left two items in question which need to be taken of before the U.S.E.P.A. will take Ferranti Technologies off of its ~~PSY~~ Generator list. Today's inspection was conducted at Ferranti's request because they are no longer in the building (the lease ran out at the end of February, 1993).

All areas inspected were empty. No waste was observed on site. The drums questioned during the 9-1-92 inspection as to their whereabouts were product - Genolu and PE-1845 (toluene diisocyanate). These drums were transferred to Ferranti's facility at 3725 Electronics Way, according to Mike Herman. A letter dated 12-17-92 to Mr. Mitzel of the Department explains how the material was taken care of.

The two magazines were inspected 9-2-92, found to contain no explosives and moved 2-28-93 to 3725 Electronics Way when the building was vacated. A 3-3-93 letter to the Department outlines this as well.

This facility does not generate hazardous waste and should submit a request to U.S.E.P.A. for removal of disposal I.D. Number.

In the "Requirement" Section of this inspection report, each listed inspection item may provide only a brief version of its corresponding obligation as described in the body of the regulations. Please use the Chapter citations listed on this inspection report as a reference to obtain a detailed description of compliance requirements.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. This inspection report shall serve a formal notification of any violations which were observed during the inspection. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Additional notification may be forthcoming, concerning any violations indicated herein and listing any additional violations.

This report does not constitute an order or other appealable action of the Department. Nothing contained herein shall be deemed to grant or imply immunity from legal action for any violation noted herein.

Signature by the person interviewed does not necessarily imply concurrence with the findings on this report, but does acknowledge that the person was shown the report or that a copy was left with the person.
